ENCLB452TKVT000247628	Yes	 A complex waveform visualization representing a transcript model. It features multiple overlapping colored lines (red, green, blue, yellow) that oscillate across a horizontal dashed yellow line. The oscillations are dense and vary in amplitude and frequency across the length of the plot.
ENCLB452TKVT000247583	Yes	 A complex waveform visualization representing a transcript model, similar to the one above. It shows multiple overlapping colored lines (red, green, blue, yellow) oscillating around a horizontal dashed yellow line. The pattern of oscillations is distinct from the first transcript, with a notable dip in amplitude towards the right side of the plot.
